◆1. Announcement-----

[1] Report: Joint Crediting Mechanism (JCM) contributions to Sustainable Development Goals (SDGs) (IGES)

This report is the first publication to analyse the inter-linkage between Joint Crediting Mechanism (JCM) and Sustainable Development Goals (SDGs) and aims to clarify how the JCM contributes to SDGs targets. The JCM projects are mainly developed between a Japanese company and a local company in the partner country; therefore, we included interviews from those companies participating in the JCM in order to give a private sector perspective.
